

Women in Science and Engineering (WiSE)

First Year Intern

WiSE is hiring First Year Interns for the 2018-2019 school year. First Year Interns will be exposed to the variety of programs that WiSE runs and be involved in the planning processes. This position entails rotating through our programs and working with different program coordinators throughout the year to gain experience. In addition, Interns will attend committee meetings in which they can input their ideas.

WiSE organizes events for university students on campus as well as many outreach programs in the community that work to empower and create opportunities for women in science and engineering. Our annual events include a Dinner with Industry, Brunch With Industry, a Graduate Program, a Mentorship Program, and a series of Workshops.

Our current outreach programs involve organizing and executing science experiments with girls in the community. These programs include Winston Churchill, the Boys and Girls Club, High School Outreach, and EngSci Days. First Year Interns will be given the opportunity to work on and develop new ideas for these programs and events! Further details about our events can be found on our website: <http://queenswise.ca/>

Time Commitment:

AT LEAST 1 hour/month

The time commitment is based on your availability, the more time you put into the position the more you get out of it. However, a decreased commitment during busy times of school is completely acceptable.

No previous experience is required.
